Factories of the Future for the Automotive Sector
Additive Manufacturing

12 March 2020
Room Einstein - BluePoint, Brussels

Organised by

DRAFT AGENDA

09.15 - 09.30 Welcome and opening address (Chairs)
09.30 - 10.00 Interventions from the EC
10.00 - 10.15 Keynote presentation addressing the needs of the Automotive Industry with respect to Advanced Manufacturing
10.15 - 10.45 Keynote presentation addressing the state-of-the-art in Additive Manufacturing
10.45 - 11.00 Coffee break
11.00 - 12.00 Presentation of projects addressing Additive Manufacturing for Automotive Applications (MAESTRO, MANUELA, KRAKEN)
Session 1
Q&A
12.00 - 13.00 Lunch Break
13.00 - 13.30 Keynote presentation addressing the material aspect of Additive Manufacturing with focus Automotive
13.30 - 14.00 Keynote presentation addressing additive manufacturing of automotive electronics
14.00 - 15.00 Presentation of projects addressing Additive Manufacturing for Automotive Applications (OpenHybrid + LASSIM, INTEGRADDE)
Session 2
Q&A
15.00 - 16.00 Roundtable discussion
16.00 - 16.15 Wrap & Closing Considerations
16.15 - 17.00 Networking coffee

* ERTRAC and EGVIA activities are supported by the FUTURE-RADAR project, which has received funding from the EU’s Horizon 2020 research and innovation programme under grant agreement No 723970
